Choose A Strategy and Pricing Period That Fit Your Business

FCStone Aggressive:

Our team of experienced market professionals will dynamically assess market conditions and utilize a full range of strategies and products including OTC swaps, options and structured products to obtain the best price for the grower.

FCStone Conservative:

A rules-based program that uses a proprietary algorithm to execute a patient marketing plan. The algorithm sells slowly in low-price environments and ramps up into market rallies. It is designed to outperform in markets with mid-season weather markets and strong downtrends.

Roach Ag+: (third party advisor)

Roach Ag utilizes their proven Sell Signals & Key Market Indicators to drive a cash and hedging strategy for farmers. Roach Ag results have caught the crop year highs in corn 13 of the past 15 years. Roach analysts will apply the same strategies to the program while using option strategies to defend sales or protect unsold bushels.
